

Angel Tuning Fork Class Channeled by Spirit!

with Certified Sound Therapy Master Teacher & Licensed Spiritual Healer

Tony Gyenis / Susanne Shields

This is an introductory class on the significance and power of Angel tuning. As you begin your practice and engage with more angelic energies you will begin to change your “energetic reputation”. Energy has intelligence and it knows who you are based on what dimensions you have worked in and where you are willing to venture. The teachings of these forks are very different to the other training you may have been taught by Reiki or other modalities. It is a teaching of a higher order and thus will have a different path and understanding of what it is you are doing to the people they send you. The power of the forks will in time speak to you and the chakra or auric fields you are working on. The chakra needs to be heard and felt with an interaction that conveys a sense of respect and intelligence. This is not part of the completion of the program to be a **Certified Tuning Fork Practitioner**. It was designed to enhance the practitioner’s skills to add to their energetic toolbox. For more details inquire by calling or email us.

Massage Therapists, Reiki Masters and Polarity Therapists, Holistic Physicians, Energy Workers and Care Givers are some of the individuals using these powerful techniques to attain the results they want with their clients. These protocols can be used to complement all energy & bodywork modalities, such as: Reike, Polarity Therapy, Feng Shui, Body Talking, Angel Therapy, Quantum Touch Therapy, CCT, EFT, Massage Therapy, Zenith Omega, Detoxification, Hypnotherapy & Reflexology.
